Education

The Iron Yard | *Front End Engineering* | *April 2016*

[The Iron Yard](#) is a 12-week immersive code school where I gained the skills to become a Front End Engineer. The first 9 weeks I attended lectures where I learned skills such as, HTML, CSS, JavaScript, Backbone.js, and React.js. The last 3 weeks were spent working on my final project, [Wander No More](#), a web application that helps you decide what to do when you can't.

Projects

Wander No More | *The Iron Yard*

My final project at The Iron Yard, [Wander No More](#) is a web app that helps you decide what to do when you can't.

Surf and Paddle | *The Iron Yard*

[Surf and Paddle](#) is a pixel perfect recreation of a pdf image using purely html and css.

Etsy Recreation | *The Iron Yard*

This is a [Recreation of Etsy](#) with dynamic content from the Etsy API
